

UX Design Storyboard

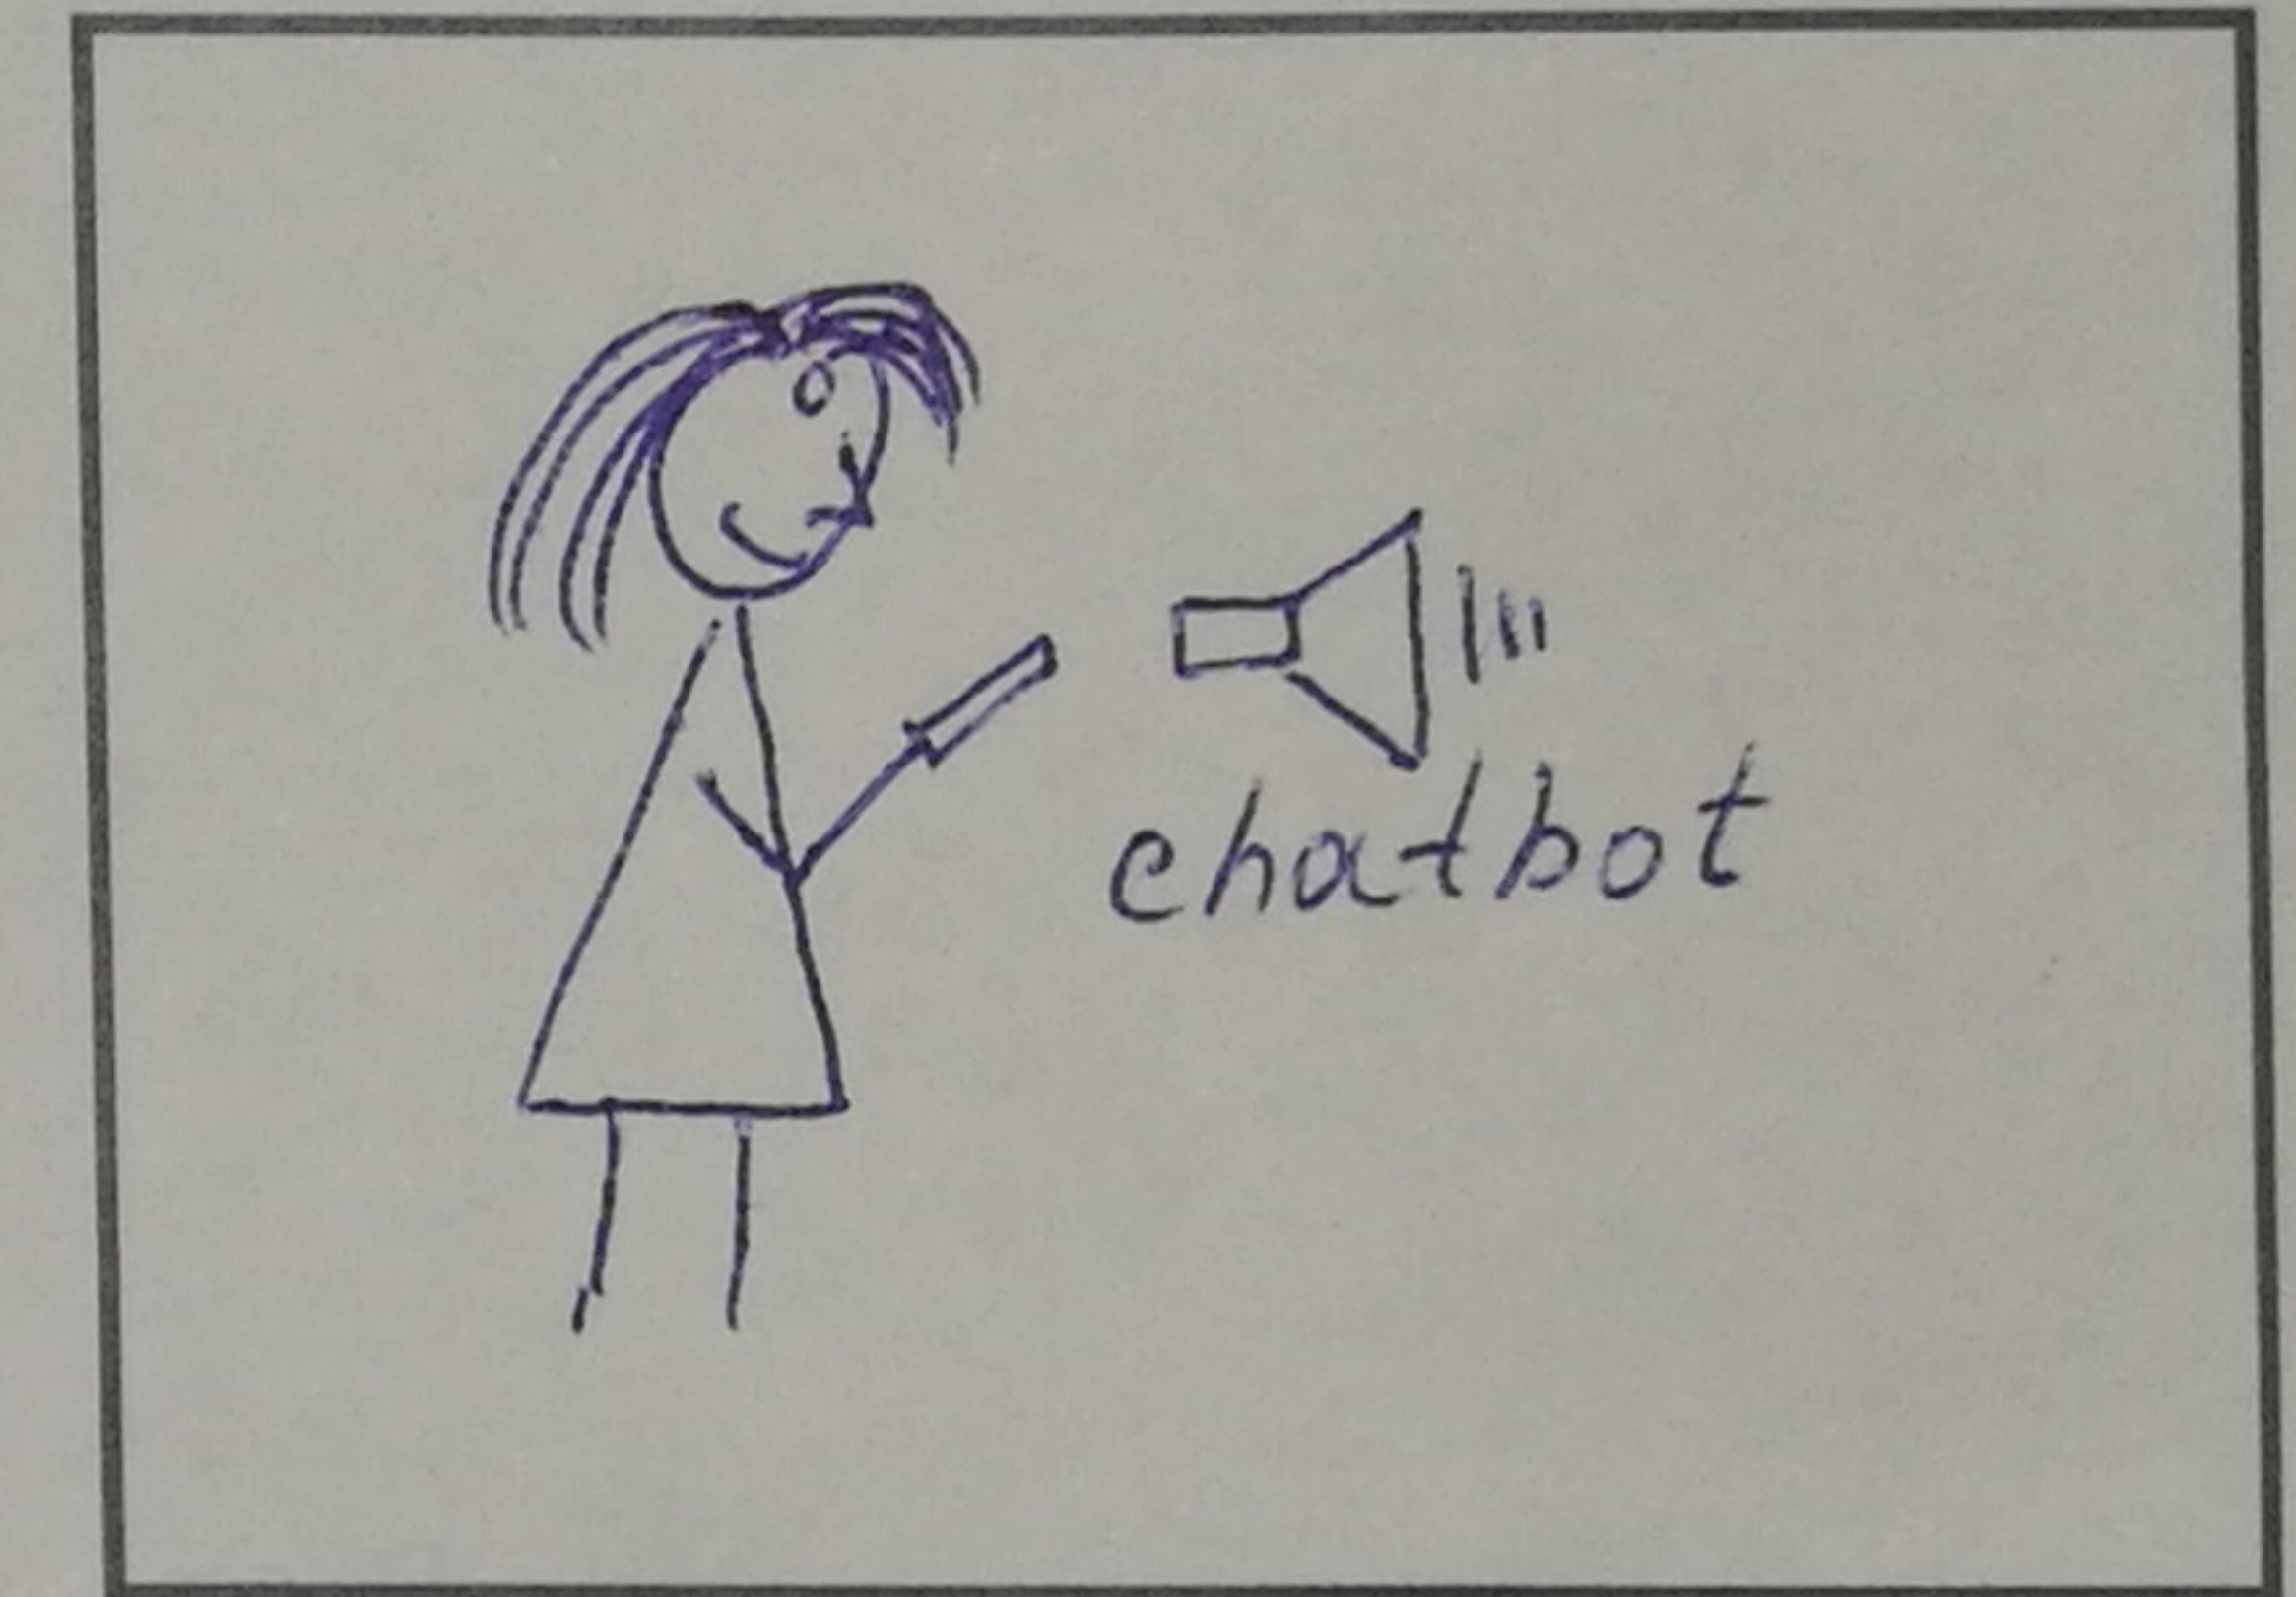

Scenario: Use the app for a faster, more convenient, informative pre-order or order at a family restaurant in California - big picture

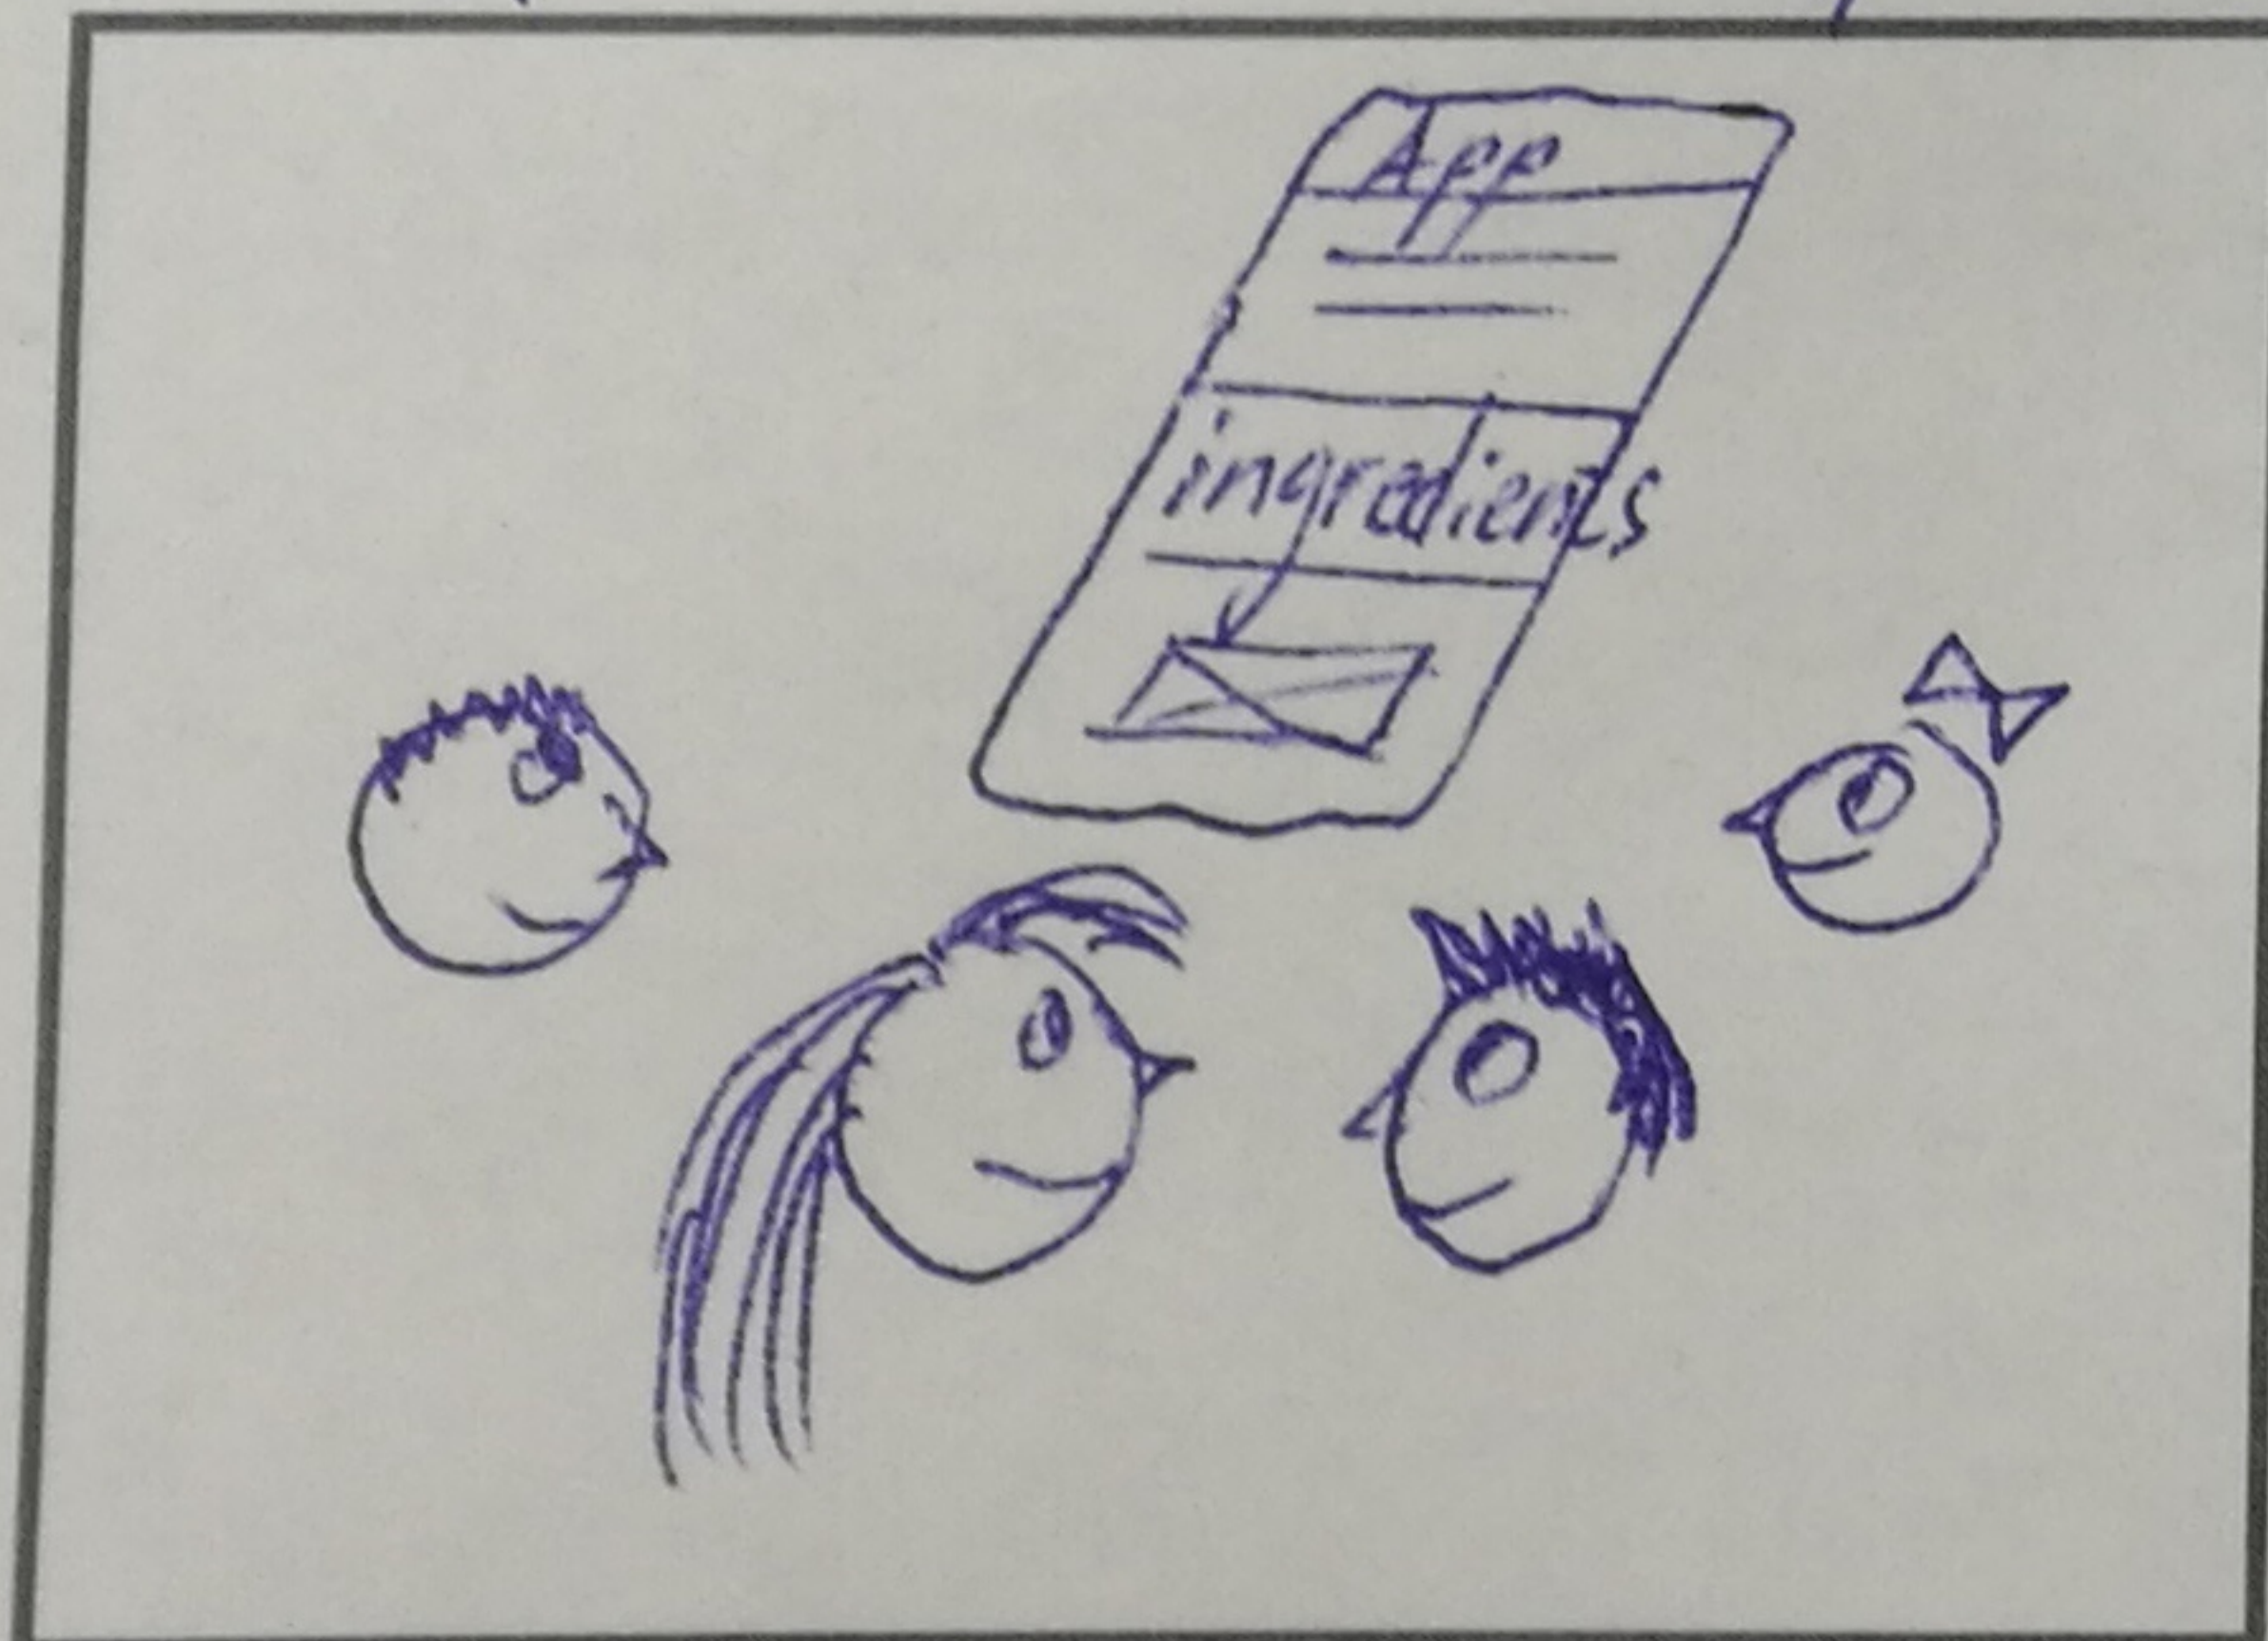

Lily wants to spend time in a restaurant with her family, but there are problems with waiting for a free table and a free waiter

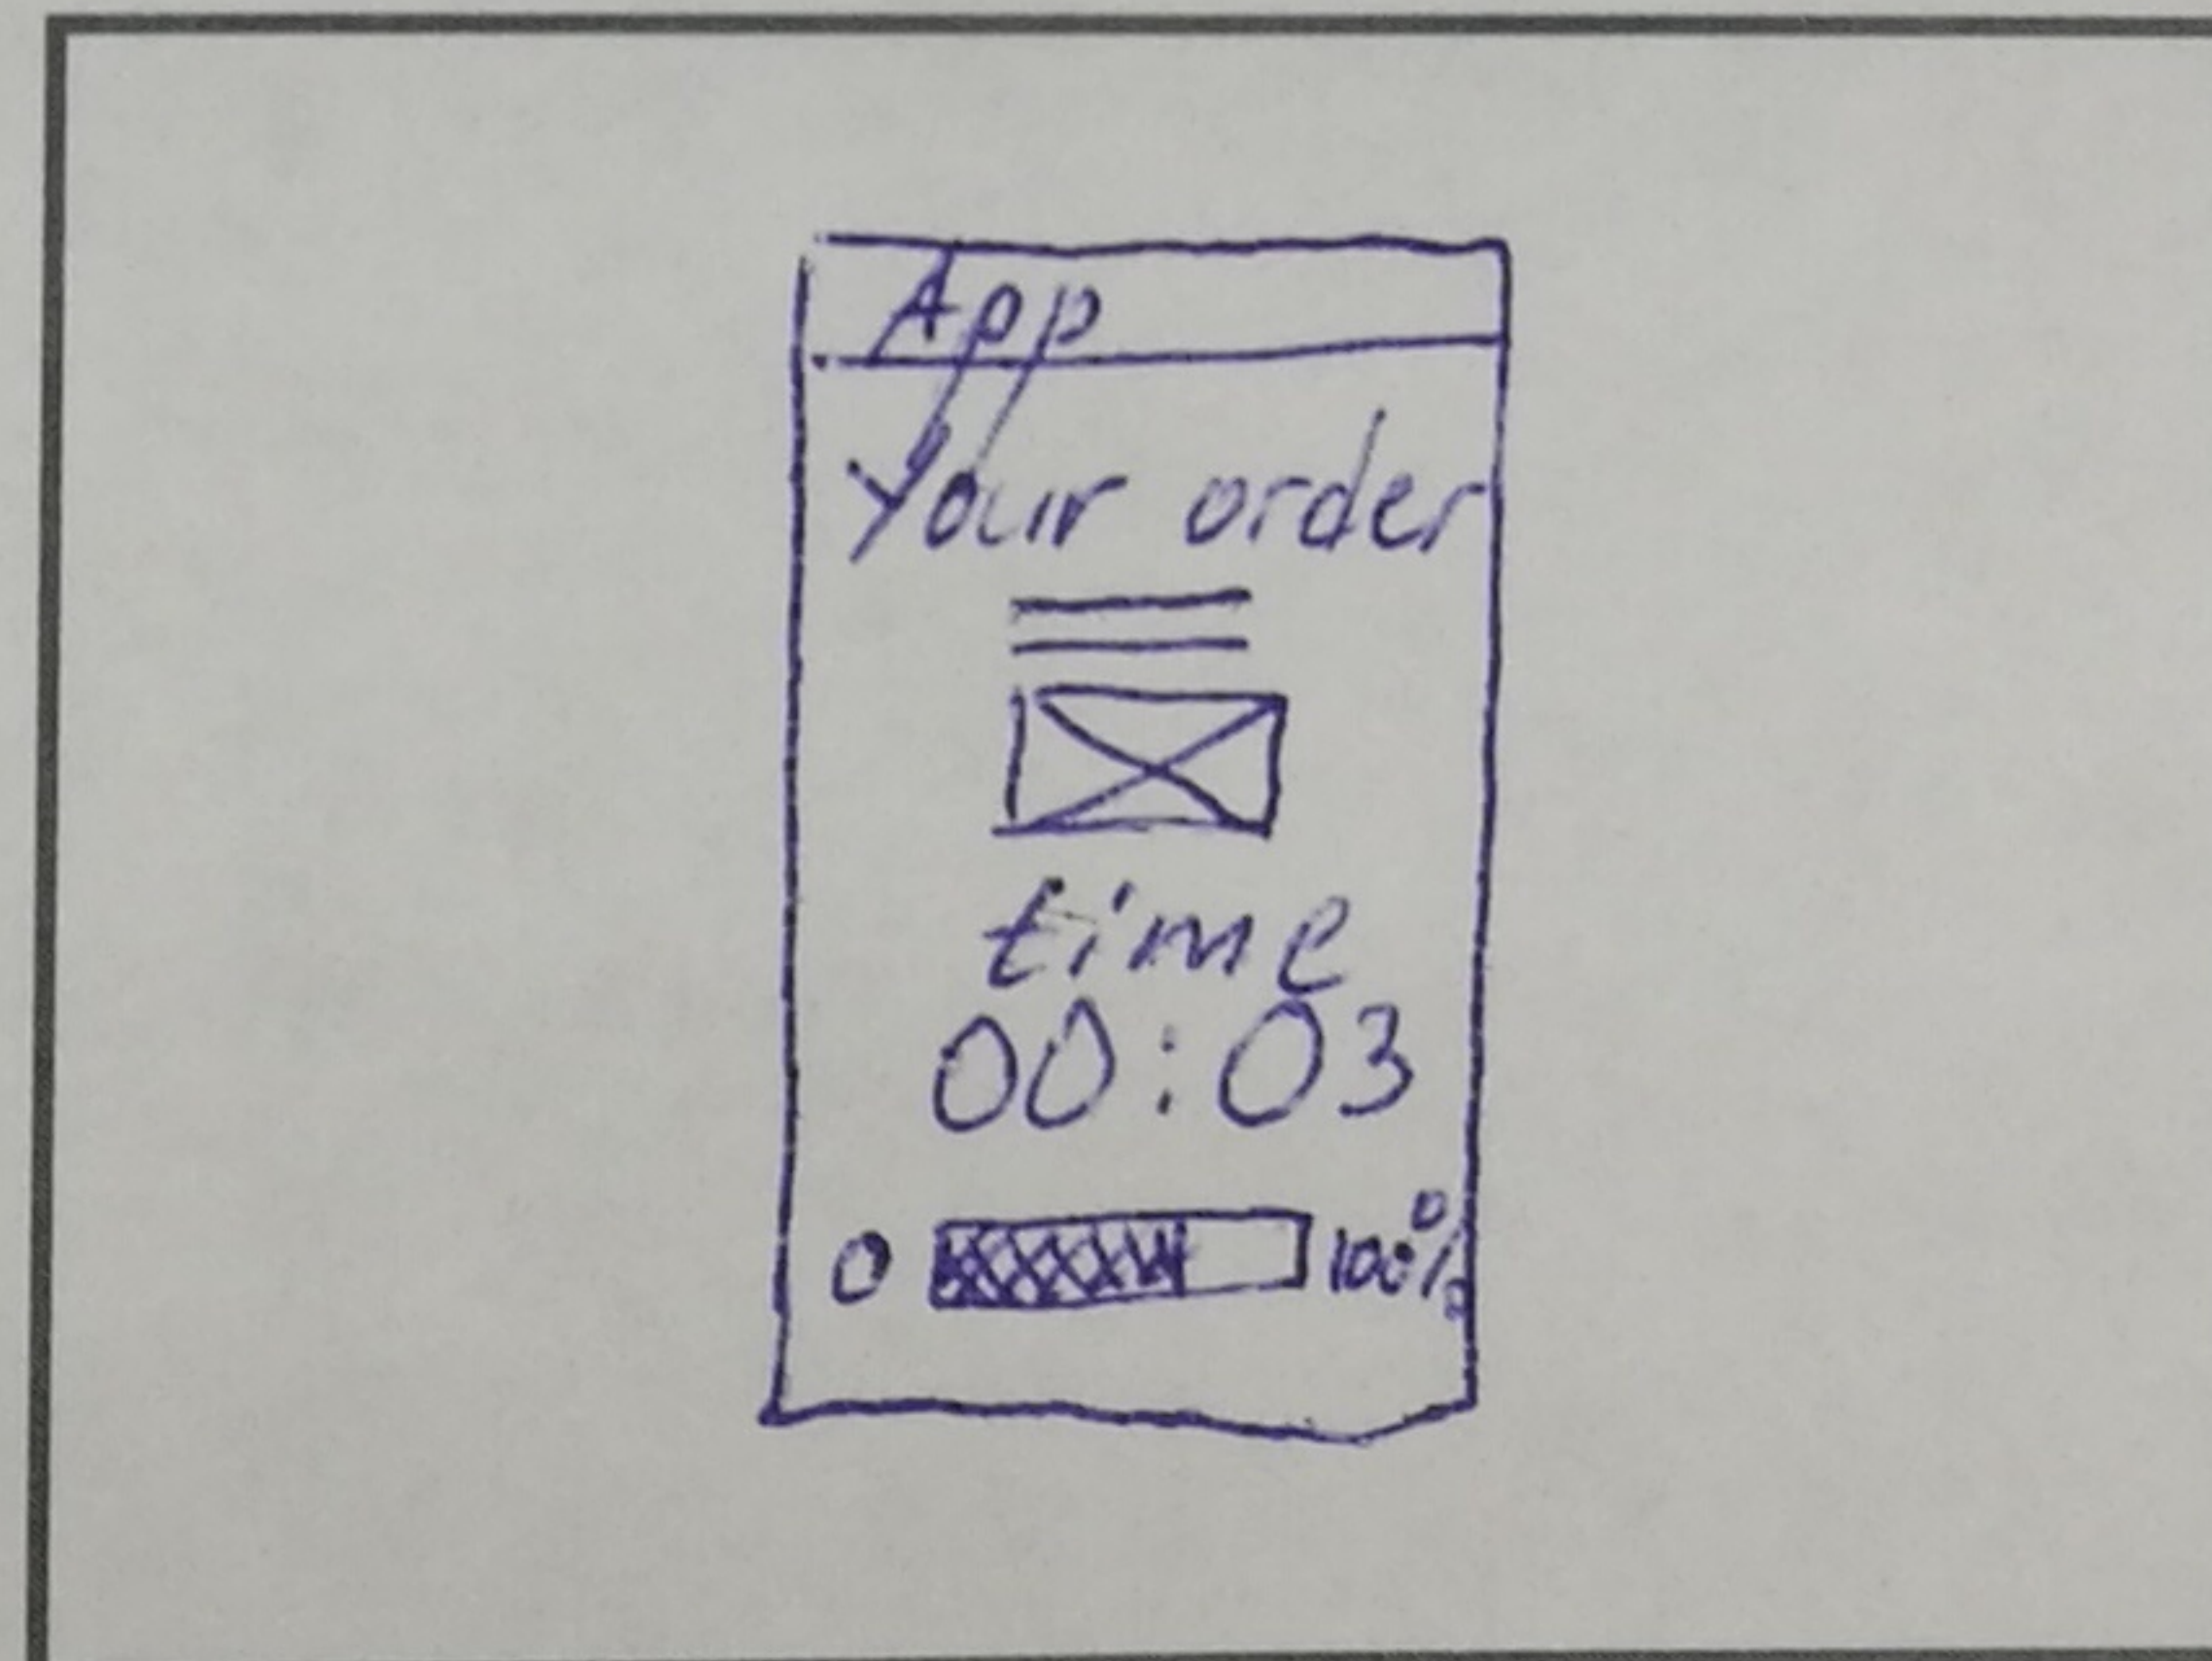

On the advice of friends, Lily opens an app that can help

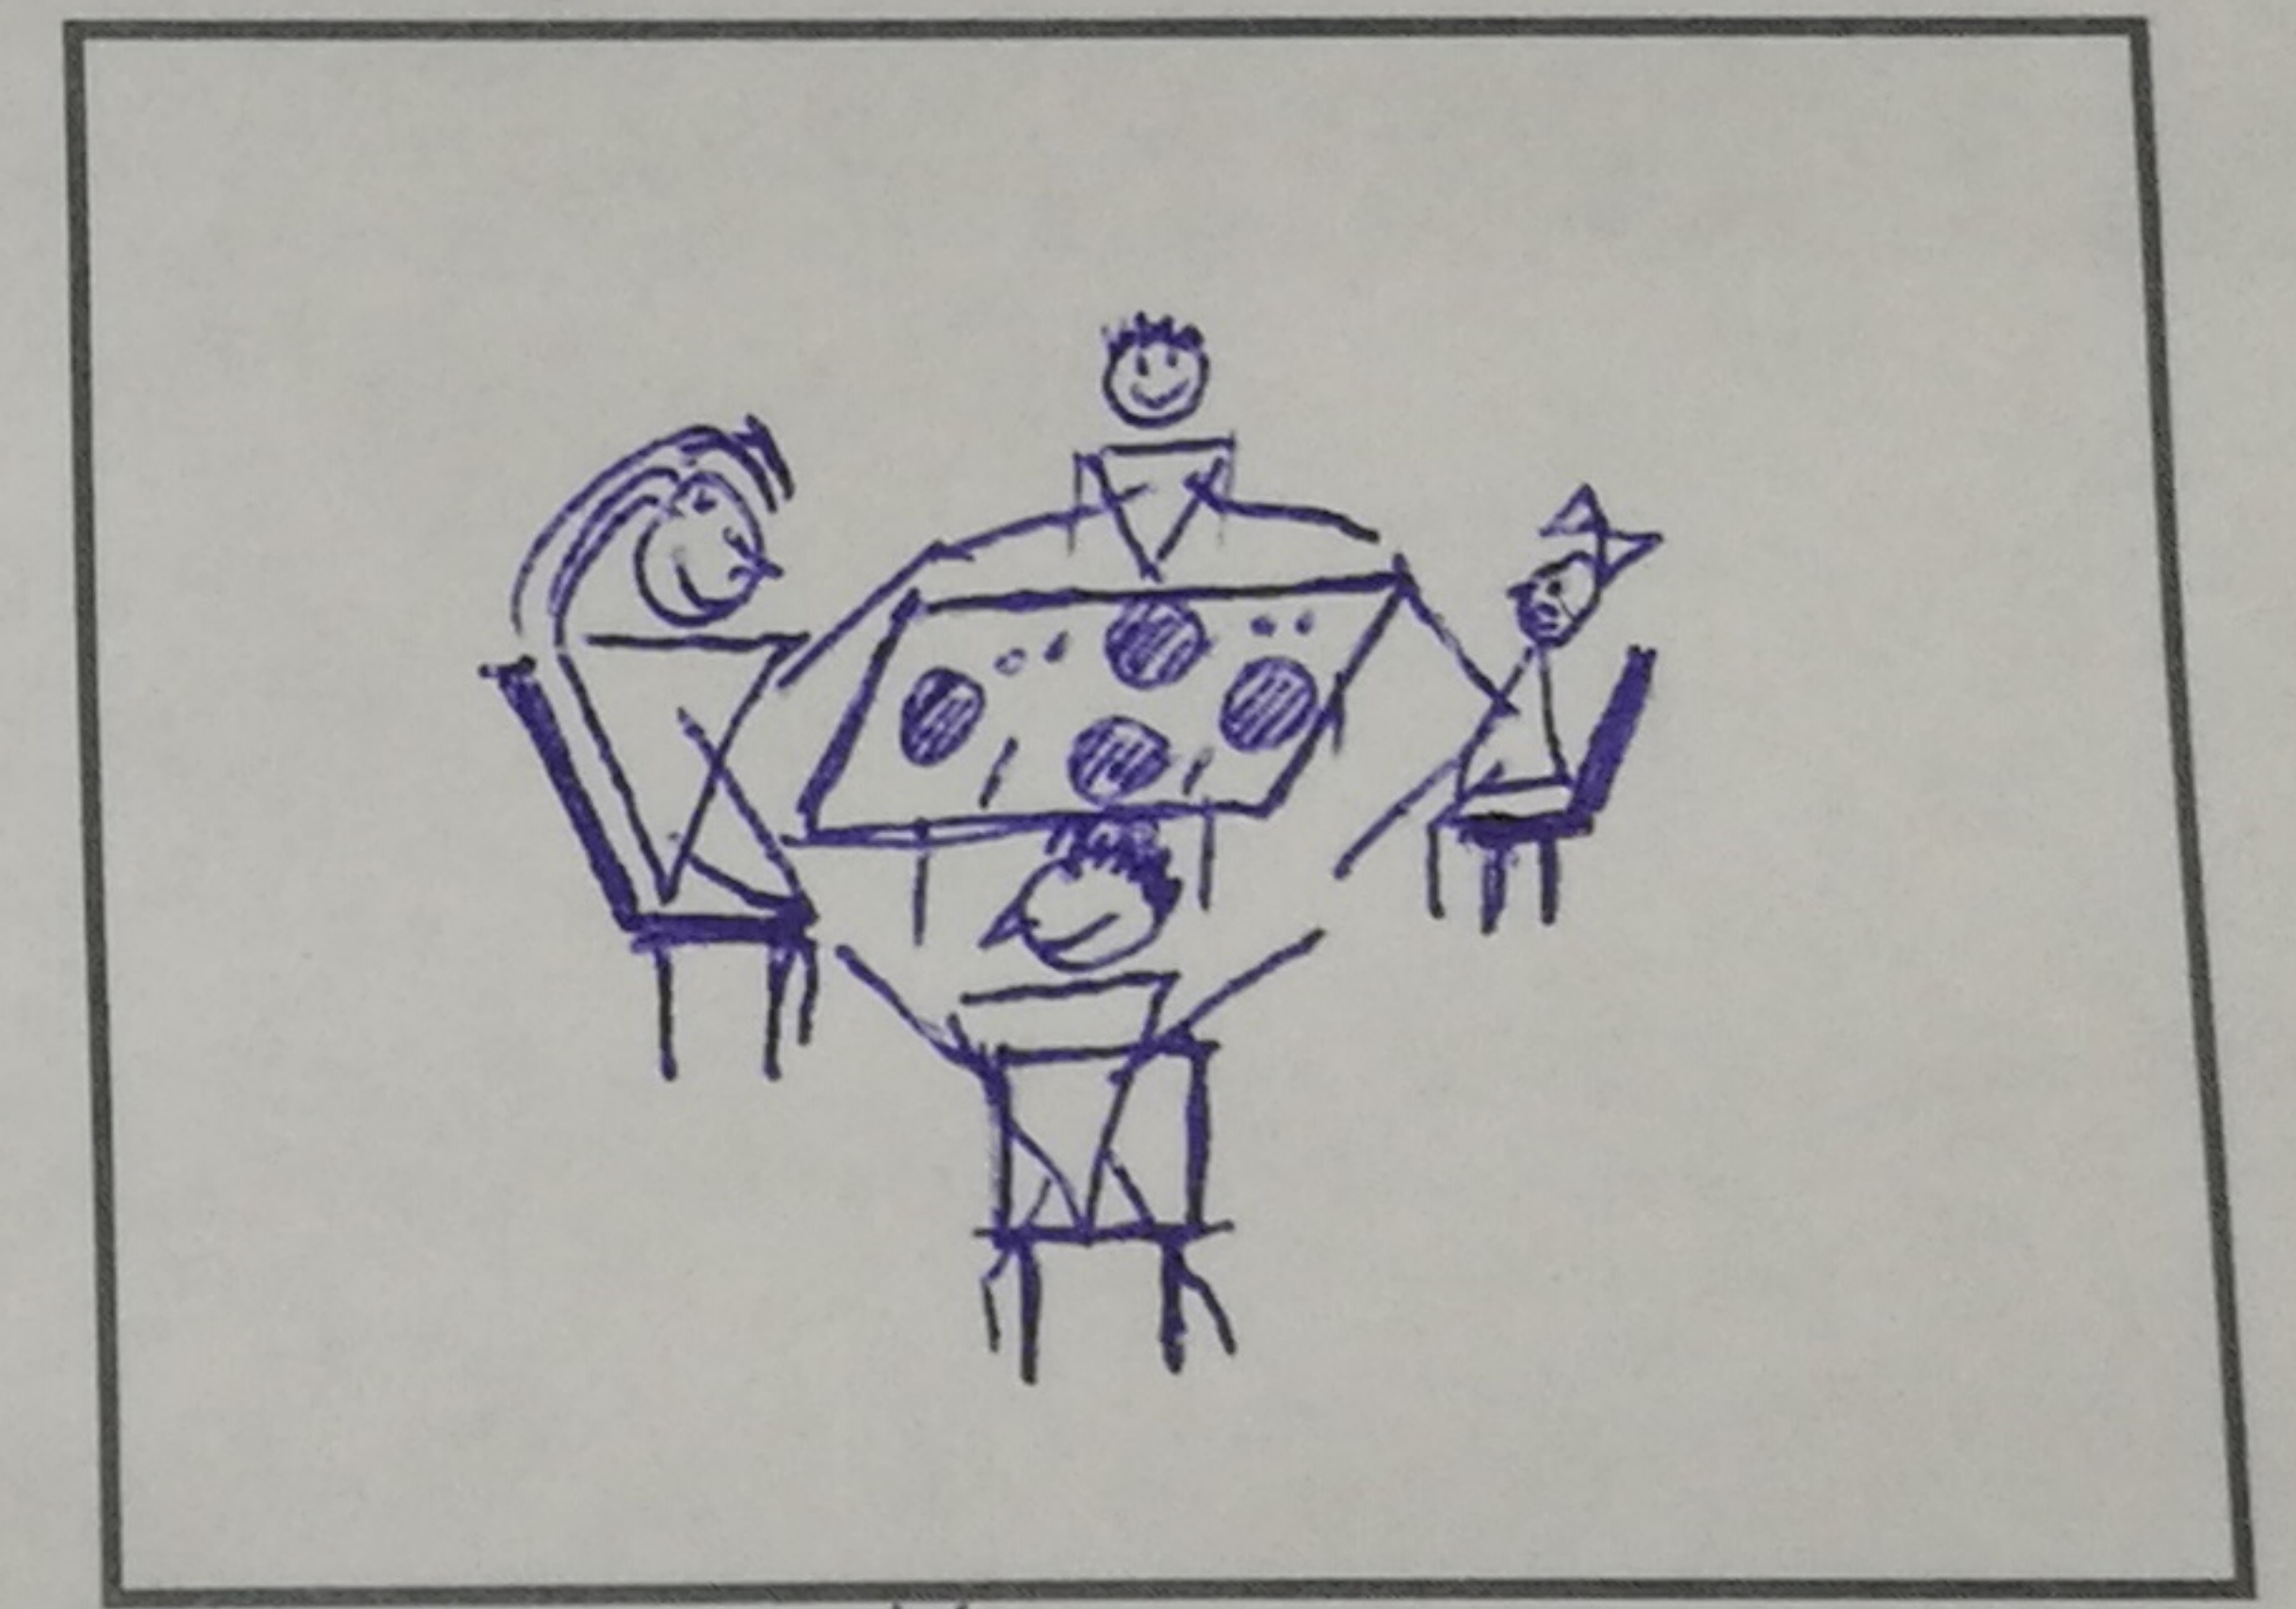

Lily uses a Chatbot for easy ordering

Lily with family evaluates ingredients

Lily keeps track of the readiness of the order

Lily with family enjoy great food and have a good time together
